NRESci Academy

The NRESci Academy is a three-year program designed to teach youth about their natural environment. In the program, members participate in hands-on investigations to learn about Kentucky's water, forest, entomology, and wildlife resources. The Academy is a three-year commitment, and meets quarterly each year.

Applicants must be in the 5th grade at the time of the application (upcoming 6th graders the following Fall). If selected, youth/families must agree to make a three-year commitment to the program. Please note that only 25 youth will be selected from the entire state to participate.

The cost of the program is \$175/year. The costs includes lodging and meals for the Fall Retreat, and programming costs associated with the 1-day events.

Each year of the 3-year program, delegates concentrate on a different core area (water, entomology, forestry, wildlife) and interact with experts in each of these disciplines. Youth participate in a variety of field exercises, including stream sampling, forest measurement data collection, wildlife observation and trapping, insect collection and identification, and much more. Youth also have the opportunity to visit natural areas throughout the Commonwealth.

Please contact 4-H Agent Carissa Miske at 606-593-5109 or carissa.miske@uky.edu for more information!
